## SUMMARY

Front-End Developer with 2.8+ years of experience building scalable, responsive web applications using React, JavaScript, HTML5, CSS3, Bootstrap, and Tailwind. Strong expertise in developing reusable UI components, optimizing performance, and collaborating across teams. Delivered 15+ projects with measurable improvements in speed, usability, and maintainability.

## WORK EXPERIENCE

**Front End Developer**  
Technoboost services

**Feb 2023 - Present,**  
Bengaluru

- Delivered **15+ responsive web applications** using React, JavaScript, HTML5, CSS3, Bootstrap, and Tailwind CSS, achieving **95%+ client satisfaction** and consistent on-time delivery.
- Developed **modular and reusable React components**, improving scalability and reducing development time across multiple projects.
- Built dynamic, interactive UIs using React Hooks, JavaScript, and jQuery to enhance user experience and engagement.
- Implemented **Redux / Context API** for state management in scalable applications, ensuring predictability and clean architecture.
- Collaborated closely with designers and backend teams to ensure **pixel-perfect UI** and seamless API integration.
- Improved performance by reducing page load times by **10–15%** through code optimization, lazy loading, and asset optimization.
- Used **AI-assisted coding tools (GitHub Copilot, ChatGPT)** for debugging, generating test cases, refactoring, and component scaffolding – increasing development speed by **20–30%**.
- Employed **AI-driven performance analysis tools** to detect rendering bottlenecks and optimize Lighthouse scores.
- Maintained clean workflows using Git, GitHub, and GitLab while participating in code reviews and knowledge-sharing sessions.
- Led **2 junior developers**, offering mentorship, code reviews, and task guidance to ensure high-quality delivery.
- Managed projects end-to-end, working directly with clients to gather requirements and deliver iterative improvements.

## SKILLS

- Programming Languages :**
- JavaScript (ES6+), HTML5, CSS3, SQL, Python
- Front-End Frameworks & Libraries :**
- React.js, React Hooks, Redux / Context API, jQuery, Bootstrap 5, Tailwind CSS
- API & Data Handling :**
- REST APIs, Axios, Fetch API, JSON, Async/Await
- Tools & Platforms :**
- VS Code, Git, GitHub, GitLab, Figma, Postman, Docker, AI-assisted coding, AI-based performance analysis,

## SOFT SKILLS

- Strong understanding of scalable front-end architecture and UI/UX best practices.
- Effective multitasking across multiple projects and deadlines.
- Skilled in building dynamic features, animations, and mobile-first interfaces
- Utilized **AI-assisted coding tools (GitHub Copilot/ChatGPT)** to accelerate development, reduce repetitive tasks, and improve code quality.
- Strong Communication in **English, Hindi ,Kannada.**
- Knowledge of AI-assisted **SEO and accessibility audits**

## PROJECTS

### SmartMinutes | Web Application [↗](#)

**Tech Stack:** HTML, CSS, Tailwind CSS, JS, JQuery

- Converts meeting recordings/transcripts into structured tabular summaries.
- Direct integration with Smartsheet for automated data population.
- Auto-generates shareable email summaries for faster communication.
- Supports multiple use cases: reviews, client calls, internal meetings.

### Ditos | Web Application [↗](#)

**Tech Stack:** HTML, CSS, Tailwind CSS, JS, JQuery

- Smart inventory management with real-time stock updates.
- Automated purchase order generation and vendor coordination.
- Built-in CRM with customer insights & loyalty workflows.
- Multi-store management dashboard with unified analytics.
- Advanced POS system with instant syncing across devices.
- Full digitization of billing, reporting, and store operations.
